It is especially suitable for real estate/construction companies dealing with the creation of a proposed layout plan. ALDEP was developed by Wm. James "Jim" Burch for clients of his construction firm of Wm. James Burch Construction. The program has now been enhanced to also cover the construction and engineering of industrial plants of all sizes. Over 200,000 different layouts have been designed for clients world-wide. ALDEP began with the office layout of 5 separate rooms. The program is currently used for . Other programs are used as well. ALDEP is a user friendly, powerful tool designed to aid the design process. ALDEP package contains the following: \* ALDEP v1.11 \* ALDEP Guide \* ALDEP Tutorial \* Tolerances d4474df7b8
