Tsunami v1.0.0 Klynt File. Torrent.rar Young Edward V as a boy" David Carnegie Screenshots (real and fake). . A: You will need to use JSoup. Try this Document document = Jsoup.connect("").get(); String title = document.title(); System.out.println(title); The JSoup HTML parser is the only tool that is built to specifically parse websites and give you the information that you are looking for. The present invention relates to a cathode ray tube for use in a color television set or a measuring instrument, etc., and more particularly to a panel-shaped phosphor screen for use in a cathode ray tube having a field-emission structure. In recent years, field emission cathodes have been drawing attention as a field emission-type electron emission source. Known field emission cathodes are roughly divided into Spindt-type cathodes and MIM (metal insulator metal)-type cathodes. The Spindt-type cathodes, which include a triode having an emitter comprising an array of fine conical electrodes formed on a tip of a conical or pyramidal emitter tip, have a simple structure and therefore are highly reliable. However, a problem with the Spindt-type cathodes is that they are complicated in structure, particularly when an array of the fine conical or pyramidal emitter tips is formed. On the other hand, the MIM-type cathodes have a simple structure and are easy to form an array of the emitter tips. For this reason, the MIM-type cathodes have been attracting much attention. However, in the MIM-type cathodes, the electric field concentration due to the negative voltage applied to the emitter during electron emission from the emitter tends to occur. As a result, an electron beam emitted from the emitter becomes difficult to move straight, so that the electron beam may disadvantageously cross over the phosphor screen in a direction perpendicular to the axial direction of the cathode ray tube. As a result, the density of the electron beam is increased in the vicinity of the crossing portion of the electron beam, so that the resolution of the image is lowered
