Now after successfully starting production on the film, the director has officially said that he is still working on it and has requested the production team to continue shooting. In an interview to the Polish website Superonline.pl, filmmaker James Wan revealed that he has already completed his part of the film, namely the first half. However, since the production team has lost its finance, they need the American distributor to help them with their production and is probably the reason for the slowness in the development. Wan elaborated that there is only a certain amount of money that can be borrowed in the US market, which is not enough to make his production financially workable.
