keyboard installed on your computer. Record by mouse button - you can record mouse buttons for mouse click, or mouse button and click. Keyboard control - You can record hotkeys for any keyboard installed on your computer. "There are no words that can describe the quality of this utility. It is simply the best program of its kind. I use my laptop for as much personal as I can and I consider myself an avid computer user. I'm not sure that I could find a program that suited my needs as well as Keymacro has done. I've used

---

several other programs that do similar things but this program is the best and by far my favorite. There are NO other products I would recommend to anyone. I wish that every computer user had the opportunity to have access to Keymacro. I love this program. I have nothing but kind words to share about this program, a very good investment indeed." Rating: 5 Name: Stacey Date: 01/23/2004 Review: "Wow, I didn't think I'd like it so much! I can't wait for my XP to come out so I can have this. I use to be a pro at recording macros in

---

Windows 98, and it made it so easy. This is its only drawback, is that you can't adjust the delay, I keep it at zero so I don't have to use two hands to press the mouse button. I use it for everything, it's so much faster than most other software. I would give it a five, I'm just waiting for XP, I don't think I'll need any more programs for it."
