Source: Autodesk.com Buy AutoCAD Free Download AutoCAD is available in two basic forms, the business model and the education model. Both models include AutoCAD LT, the AutoCAD drafting application, and AutoCAD R14, the AutoCAD CAD editor application. The business model account is intended for anyone who uses AutoCAD for a business purpose, such as design, drafting, or manufacturing. AutoCAD LT is sold at a reduced price (approximately $1,200) for companies that use AutoCAD for internal-use only. This license does not include any of the other software applications (e.g., AutoCAD Designer, AutoCAD Project Manager, etc.) for which you may be purchasing a separate license. The education model account is intended for educators who use AutoCAD for an educational purpose, such as teaching students about computer-aided drafting. AutoCAD LT is sold at a special educational price of approximately $300. This license does not include any of the other software applications for which you may be purchasing a separate license. Note: AutoCAD LT and AutoCAD R14 include the same base version; the only difference is how the software is configured and how it is licensed. From the AutoCAD community Autodesk Autodesk is the maker of AutoCAD, one of the most popular CAD software applications. Autodesk offers AutoCAD LT and AutoCAD R14 with two levels of software. These levels are designed to meet the needs of the different markets for AutoCAD: AutoCAD LT: The Business Model The Business Model account offers AutoCAD LT as the only CAD application. This account is designed to meet the needs of AutoCAD users who want to use AutoCAD for an internal purpose. This type of account uses only AutoCAD LT, and users may not be able to use any of the other AutoCAD software. The Business Model account offers AutoCAD LT as the only CAD application. Extensions of AutoCAD architecture were developed that also support the C++ language (AutoCAD Architecture Extension, AutoCAD Electrical Extension, AutoCAD Mechanical Extension). Because of the commercial nature of AutoCAD Architecture Extension, the product is free, with a registration-based license. There are also a number of completely free extensions to AutoCAD architecture available (such as Rasterizer) that can use the DXF export function, but do not offer the same level of functionality as the paid-for AutoCAD Architecture Extension. Access to the source code allows design teams to modify the AutoCAD Architecture source code to customize AutoCAD Architecture for their purposes. This is also done for AutoCAD Mechanical, AutoCAD Electrical, and AutoCAD Civil 3D. Third-party developers can also modify AutoCAD Architecture source code for their own application. Autodesk Exchange Apps Autodesk Exchange Apps are apps created using the Autodesk Exchange format (DXF) and are made available in the Autodesk App Center. Such apps are typically related to AutoCAD or other CAD software. Imageware v13 Imageware v13 is the current version of the AutoCAD Architecture software for model conversion. Imageware is a data conversion tool that allows users to import and export various file types into and out of AutoCAD Architecture. Imageware v13 was released on March 19, 2009, and was made available on the Autodesk App Center. Imageware v13 is available for the following systems: macOS (Intel and PowerPC) Microsoft Windows (all versions since 2000 and Windows Server 2003) Linux (all versions) Although Imageware v12 is still available on the App Center for

version 12 customers, Imageware v13 customers are no longer supported by Autodesk. Imageware is a tool that users may purchase on a per-seat basis. The basic version, with limited functionality, is free. A license for Imageware v13 is available at the discounted price of $299 (vs. the standard price of $399).
