Nov 17, 2021 - SESSION HORNS PRO is the last word in playable horns. Organize 10 perfectly sampled instruments in sections of up to six pieces. Each one plays a tone of 2 to 5 seconds, so you can create completely new tunes in minutes. With this utility, you can create unique pieces of music in a single instrument. You can use them to add sounds to your videos to great effect (a very good effect for creating music in real time) or just use them for recording so you can use them in any music project.
