Cinavia is designed to remain embedded into the audio signal even if the movie has been compressed, encoded and re-encoded. It's that good, and since 2012 it's mandatory for all consumer Blu-ray Disc players, leaving a great deal of file sharers truly helpless when it comes to watching a cloned Blu-ray. However, some have put it in their schedule to deal with removing the watermark and so CinEx HD was built. Remove Cinavia from original Blu-ray discs Cinavia has over a dozen years of work behind, it irrefutably works and so, you would expect CinEx HD to be an overly complicated piece of software. Actually, CinEx HD is far from that and can be used by just about anyone who possess basic computer use skills. When you run the application, you are greeted with an unexpectedly simple window from where you are able to choose the source file or disc, set the destination for the copy, select the movie database and start the job. That's all there is to it, four simple steps followed by a process which creates a copy of the original without altering its quality or structure, and of course, Cinavia free. You won't even have to worry about the movie features such as menus and extras as they are preserved and you can even use CinEx HD to burn a new disc. A handy tool but with a limited database
