can i have e-mail messages or faxes sent to my printer? i'm trying to get a message printed to my printer and i have Epson RX600i, but it doesn't seem to be working. can someone please help?

Hello, If your computer is connected to a fax machine and the program installed in the computer is sending the fax, it's working. If the fax machine is connected directly to your computer, or to an external modem, the programs are not sending fax. It's a simple question: you have to set the fax modem connection. Read more about faxing in the section Help and Support.

Q. Is there any other software that I can use instead of Solution Menu EX

A. Solution Menu EX is designed to provide you with quick access to your scanner,

---

printer or other Canon device. It adds a shortcut menu to your desktop and enables you to print a photo or scan an image with just a couple of clicks. If you have multiple Canon devices and want to use them in the daily activity, you need to launch the software that makes it possible to scan a document or open a saved file. You can do it from the Start Menu or by creating desktop shortcuts for each of them. However, in order to perform specific operations you need to click several times in the program interface to locate the required feature. This application is designed to save time by displaying the frequently used features in a customizable menu. By installing the app your desktop is enhanced with an Accessory icon which allows you to perform certain actions with minimum effort. By default, the icon provides you with a list of operations supported by the installed devices. Although you can access the features from the main window, you can drag the icons onto the Accessory icon in order to customize the Shortcut menu. This allows you to create the menu suitable for your activity. When you have more than one scanner or printer, you should select the ones you want to use from the Preferences window. Additionally, you can enable the notifications for software updates according to

KeyMacro is an application that enables you to quickly add new keyboard macros to any application. You can create complex macros with few keystrokes. KEYMACRO features:

- \*Edit keyboard macros from Windows Explorer
- \*Keyboard shortcuts are stored and editable from the Settings window

## Support Printing Documents and Scanning Photos

Automatically detect your devices and create a shortcut menu  
Customize your Shortcut Menu  
Resize any item in the menu  
Easy to use interface  
Set multiple shortcuts from the Preferences window  
Support Printing Documents and Scanning Photos  
Solution Menu EX takes care of the settings for the printers and scanners. With just one click you can print or scan a document or a photo. The app displays a contextual menu when you right-click on a document or image and allows you to create the desired content easily. If you want to get rid of the context menu, right-click with your mouse on the desktop or the desktop icon. Solution Menu EX allows you to create different menus for different scanners, printers or the main menu for all of them. Additionally, the application lets you create shortcut menus for printers and scanners, which makes it easy to scan documents or print photos from any window. Additionally, Solution Menu EX allows you to set multiple shortcuts from the Preferences window. This means that you can create shortcuts for the operations that are most

---

useful for you. When you create the shortcuts, you can adjust the settings of the printers and scanners to your preferences. You can choose which languages to display the notifications and where to locate the software updates. Customize your Shortcut Menu Solution Menu EX lets you customize the shortcut menu. You can add or remove items according to your needs and drag items from the top list into the menu. The app lets you resize any item in the menu according to your preferences and put them into the appropriate positions. Additionally, you can close the items, which are not needed. You can resize the menu according to the size of your desktop, so the menu becomes more compact and the most used items get larger. You can maximize the displayed items by dragging them to the top of the window. Additionally, Solution Menu EX lets you create menus for printers and scanners, which means you can do specific actions with just one click. Resize any item in the menu Solution Menu EX lets you resize the menu items. You can drag them down to the bottom of the screen and shrink them in order to fit the menu. Additionally, you can drag them to other locations and scale them up to the size you need. You can adjust the size of the items and the menu itself to fit your computer screen. Easy to use

---

interface Solution Menu EX has a clean interface with a minimalist design. The most frequently used features are displayed in the
