It used to work fine when i was building it on a local server. Now that i have uploaded it to my hosting site it gives me the following errors on the shopping cart controller: if(isset(\$_POST['add-to-cart'])) { \$cart_item = new CartItem(); \$cart_item->cart_id = \$_GET['id']; \$cart_item->product_id = \$_GET['product-id']; \$cart_item->user_id = Auth::user()->id; \$cart_item->quantity = \$_GET['quantity']; \$cart_item->product_price = \$_GET['price']; \$cart
