Whichever martial art path you choose, it is important that you learn and practice the art correctly. À Learn more about karateQ: C# How do you pass one object to another method I have a hard time trying to figure out how to solve this problem. I tried to ask this question on SO, but no one answered, so I'm starting a new question. Basically, I have a ball and a tank. When the ball touches the tank, it's supposed to bounce, and when it bounces, the tank is supposed to move in a different direction. I'm not sure how to pass the
