## **Mafia 2 Trainer 1.0.0.1 Skidrow 14 [VERIFIED]**

and its not even the best mafia 2 to be had in the pc market, ill get to the 3d version in a bit. i cant help but feel sorry for the pc players that are forced to play a game that looks like this, but i'll still give this a shot for the same reasons as the rest of you, and ill report back on it when i'm done. after playing a few rounds of the game you start to realise how much of a great game it is. the story is interesting and has a lot of twists and turns. the biggest problem with the game is that the graphics are pretty dated and the models are poor. the world map is a little bit bland but it is still an okay map. overall the game is a good game but it is worth checking out if you love mafia games and mafia 2 is one of the best. thats a good game. for a while i was worried that the guy wouldnt come to his senses and realise he actually wanted to be a good mafioso but after the epilogue i got over it and had a good time. i just want to say that the game is really well made and the graphics are good. the story is pretty good as well. a lot of the mafia2 fans will be quite upset with this game, but if you ask me, its a good game and a lot of fun to play. in this game, you play as a member of the new mafia, replacing the gangsters who previously held power in empire bay. you must gain respect for the gang, and protect the family from the old mafia to earn your place at the top. i started playing it after day i downloaded and got back in time in 2010 once again! ( even though i remember how story goes and characters i still enjoy) + i didnt had very good computer in a day of release 10years almost ago darn time flies like shiiit!! theres some detailed graphics in models ( faces mostly) and effects but it has old engine and out of sync dubbed voices. animations weird too but and yeah it has all 3dlcs jimmy vendetta is more like new game and but of glimpse of upcoming mafia3.
